orated official floats. The procession will form at Richards and Hotel streets and move down Richards to Merchant, to Nuuanu, to King, to Fort, to Vineyard, to Emma, to Alakea, to King and thence past the reviewing stand at the entrance to the Executive grounds beyond which it will disband.

The parade will probably begin at 9 a. m.

The various committees are hard at work. Each is trying to make its part of the celebration the feature. The parade is to be full of gorgeous color and brave soldiery, such as will stir the enthusiasm of all. Col. Jones is chairman of this committee and is preserving his reputation for a hustler. The literary program under the direction of W. R. Farrington, is rapidly assuming shape. Maj. McCarthy, chairman of the sports committee, promises some interesting athletic events. The feature will be a match game of base ball between the Stars and the "Kams." A horse racing program is being arranged. It is said that the principal event will be a two-mile dash between Sympathetic's Last, Amarino and Garteline. Such a race would create great interest. The ball is to be given on an elaborate scale. It will probably be held in the drill shed. Mr. Kennedy, chairman of the fireworks committee, though handicapped on account of not having had time to send away for fireworks, promises that the display will hold its own with the other features of the day.

CONFIRMATORY

Beet Sugar Interest and Trust Favorable to Hawaii. (The Financial Letter, S. F., June 9.)

The full and permanent protection of Hawalian sugers against semi-domestic productions, as well as against foreign competition, is completely assured. Private and reliable advices from the East say that the beet sugar interests habe been semi-officially informed of this fact, and in consequence will make no enort at the coming session of Congress to have a duty imposed on Hawalian sugars. In the case of those of Puerto Rico, Cuba and the Philippines, however, tariffs will be imposed in the protection of the beet sugar industry. A measure to that end will be introduced in Congress and will have the support of the Secretary of Agriculture. These are either conquered or midtarily occupied territories, and the Government has full discretion in the premises. It is different in the case of the Hawaiian Islands. They were not only annexed by treaty between the former Government of those Islands and the United States, which treaty was ratified by Congress, but the document contained a clause restricting future legislation by Congress in respect to Hawali to the government of those Islands. In other words legislation is confined to matters relating to their interior government, and it is not in the power of the American Government to legislate on subjects pertaining to matters between them and the United States proper, such as would be the imposition of a tariff on their and coal from the colonies to San paid up, \$170; 100 Hawaiian Electric, sugars. The Administration, fully understanding this restriction, has made to the Government, however, for one the situation apparent to the beet su- trip, and will charter a sailing vessel gar men, which explains their aban- to take her place temporarily. LONDON, June 14.-The correspondent of the Daily Telegraph at Cayenne, French Guiana, says:

Col. Logan Ready for the Exposition Season.

Preserved Fruits and Vegetablus-School Work and Photographs. Governor Cleghorn.

A portion of the exhibit for the Hawatian section at the Omaha Exposition was on view at the agricultural bureau rooms yesterday. Last evening it was boxed and crated for shipment by today's steamer. Secretary Logan also leaves today and will have personal charge of the exhibit to its destination.

Big jars contained papaias, figs. mangoes, oranges, corn and potatoes, all of which looked as natural as in their pristine state. Aid in putting up these articles was given by Byron O. Clark, M. Lutted and Geo. W. Smith. The work is very creditable. In addition to the fruits in their natural state dozens of jars of jams and preserves were temptingly arranged.

A collection of articles from Kamehameha schools showing examples of work turned out in the various departments is one that will attract considerable attention. Along with this is a number of first class drawings and relief maps sent by Bro. Frank, principal of St. Anthony's school, Walluku. All of the articles are the work of the scholars.

One of the finest collections of Hafurnished their finest specimens, and posals. they are first class examples of the photographer's art.

There were a great many other articles. Great quantities of ferns and palms of the same varieties as grow it the Islands will be sent on. Consider Logan has had the showing alread made is a creditable one. More ma terial will be gathered up to the tim of Gov. Cleghorn's departure and wi go forward under his supervision.

The Wyefield for Manila.

The United States Government June 11th chartered the big British tramp steamer Wyefield to carry Five Onbu, \$305; 5 Hawaiian Sugar stores to Manila. The Wyefield has been engaged in carrying coal for John Rosenfeld's Sons for some time past. Her coal charter expired and she secured another to carry general American Sugar, paid up, \$170; 100 merchandise from here to Australia Waialua, assessable, \$100; 35 Waialua, Francisco. Her charterers gave way tariff on Hawaiian sugars. They know will be placed on the Australian run. 216, 217 and 218, for \$25.00 each, issued The Wyefield is a large carrier, and in favor of Frank Gouvia, all drawn by will take between 6000 and 7000 tons of Government stores to the Philip.

American Plan is Rejected at The Hague.

Virtual Abandenment Recorded-Progress of Peacy Conference. The Drafting Committee.

THE HAGUE, June 9 .- The Peace Conference today entered upon its nost important stage when the drafting committee of the third section took up arbitration. According to a foreign delegate, the American scheme does not seem to have obtained the support of many of the delegates. The land, and I have very much loved its Americans, it is added, have realized this, and have virtually abandoned the idea of pressing its adoption, and, therefore, it may be considered virtually abandoned, or, at most it will only furnish material for a few amendments, which will be submitted during the debate.

> The Russian project is still kept absolutely secret. M. de Staal, head of the Russian delegation, and president of the conference, has voluntarily withdrawn all claims to priority in favor of the British scheme. The Russian scheme will not be pressed and the other part will be incorporated with the British proposal in a definite scheme. The proposal of Sir Julian Pauncefoie head of the British delegation, has the advantage of not saddling the powers with the expenses of a permanent sitting tribunal, especially as the latter would have nothing to do during the greater part of the year, and the adoption of this scheme, with modifications, is considered certain. An appendix relating to organization in the Russian scheme of an arbitration tribunal proposes that the conference appoint five powers, which, when a request for arbitration is made, will each name a judge, who will form the tribunal.

> The drafting committee was in session for three hours, although not a single conclusion was reached, with the exception of the acceptance of the British scheme as to the basis upon which to discuss the estimate of a tribunal of arbitration. After the session most of the members telegraphed their respective Governments, indicating that the discussion showed the necessity of having their instructions amplified.

It is understood that several of the delegates of the smaller powers expressed a wish that the permanence of the tribunal might be made more effective, and even moved amendments wallan views ever gotten together in this sense. The great powers, howforms an interesting portion of the ever, think it impossible, it is said, to exhibit. The photographers have all go beyond Sir Julian Pauncefote's pro-
